

HOW TO OPEN AN ABOVEGROUND POOL

1. Remove leaves and water from top of cover.
 2. Remove cover, clean and fold for storage
 3. Install the 2 plugs in the main pump and 1 in the pump strainer.
 4. Apply drain cap or plug in filter
- (Apply plugs to lights, Pool Frog and chlorinators when applicable)
5. Remove plugs from return fittings in pool and skimmer.
 6. Bring in water level up to mid-way of skimmer
 7. Prime pump(s).
 8. Start up with filter on waste.
 9. Turn off pump and switch to backwash
 10. After 2 minutes turn pump off and switch valve to rinse, rinse for 15 sec
 11. Turn pump off, switch valve to filter and let it run.
- (CALL FOR DIRECTIONS IF YOU HAVE A MAIN DRAIN)
